

Intra and Elcee join forces!

Intra, June 2015

We are proud to announce that starting June 1st 2015, Elcee with its stainless steel sanitary business unit will be Intra's international strategic partner.

Elcee is a supplier of stainless steel sanitary products present both in national and international markets, with know-how, professionalism and a large range of products from world leading producers. It was founded in Rotterdam, Holland in 1923.

Functionality and durability are two factors that are highly valued with the customers and is part of how we shall always assure that the products meet the highest quality requirements. These are core values that integrate seamlessly with those of Intra.

What does this mean?

By combining the knowledge of Elcee and Intra in terms of product portfolio, product development, sales, distribution and support, we take the service and quality expected from us to an even higher level.

A first visible step in this partnership is the expansion of our product portfolio, so go ahead and get in touch with your contact person at Intra for more details, naturally the same team at the same address.
